

Galleria RECLAIMED WOOD ALDER GREY

Reclaimed wood from naturally weather-beaten alder with a surface full of character and colour variation; sound knots, black knots, knot holes and spike knots possible; pith ray, resin pockets, worm holes, shakes, nail holes, bark pockets and mechanical damages possible; colour variation caused by natural weathering of the wood is a valued feature. Top layers are joint free placed but not joint less glued. Longitudinal and transverse joints of top layers possible.

Bottom layer: Alder or softwood, no typical quality specification.

The above picture shows an example of the natural character of the wood, this will vary from element to element. Variations in colour and grain patterns are natural and inevitable. A picture is never a substitute for the "real thing". For this reason we recommend a visit to your nearest Admonter dealer. He will be pleased to show you samples.

Characteristics

Finish	Thickness mm approx.	Width mm	Length mm	Top layer thickness mm	Packaging Pieces/pack.	Matching trim
raw	19	244	1800 / 2100 / 2250 / 2400*	approx. 7-9	5	25 x 60 mm
