SPRUCE HACKED H1

Surface full of character, mostly sound knots, occasional small knots, small filled knotholes, occasional pith ray and resin pockets possible, slight compression wood and slight colour variations might occur, jointfree gluing.

Surface: hacked H1 - holes generated by this surface treatment are not filled (visible middle layer).

Bottom layer: softwood, without special quality specifications.

The above picture shows an example of the natural character of the wood, this will vary from element to element. Variations in colour and grain patterns are natural and inevitable. A picture is never a substitute for the "real thing". For this reason we recommend a visit to your nearest Admonter dealer. He will be pleased to show you samples.

Finish	Thickness mm approx.	Width mm	Length mm	Top layer thickness mm	Packaging Pieces/pack.	Matching trim
natural oil	19	244	2400	approx. 6	5	25 x 60 mm
