oberfläche

Finish / Finition / Finitura

natur geölt

Natürliche Öle halten die Poren des Holzes offen. Der gesundheitsfördernde Aspekt des Raumklimas kommt hier voll zur Geltung. Regelmäßig und richtig gepflegt, bekommt die Oberfläche eine natürliche Patina von außerordentlicher Widerstandskraft.

natural oiled

The natural oil finish keeps the pores of the wood open allowing the floor to breathe. It has a regulatory effect on moisture, in this way ensuring a healthy room climate. Through regular and proper care & maintenance the surface gets a natural patina of extraordinary durability.

huilé naturel

La finition huilée naturelle est un traitement de surface naturel, les pores du bois restent ouverts. Cette finition agit comme régulateur d'humidité et assure un bon climat ambiant. Un entretien régulier permet la formation d'une patine naturelle avec une résistance exceptionnelle.

oliato naturale

Gli olii naturali mantengono i pori del legno aperti lasciandolo respirare anche una volta posato. In questo caso, la salutare capacità igrometrica del legno rimane intatta. Una manutenzione regolare e correttamente eseguita conferisce al pavimento una patina naturale in grado di offrire una resistenza straordinaria.

UV geölt

Der Auftrag besteht hier aus großteils natürlich nachwachsenden Bestandteilen. Eine gute Wahl, wenn das ursprüngliche Erscheinungsbild mit geringem Pflegeaufwand und erhöhter Widerstandskraft kombiniert werden soll.

UV oiled

The UV oil consists of mostly sustainable constituents. A UV oiled floor requires little effort for care & maintenance and is very durable.

huilé UV

La finition huilée UV se compose en plus part d'éléments naturels. C'est un bon compromis entre l'aspect naturel, peu d'entretien et une forte résistance.

oliato UV

L'olio UV è costituito per la maggior parte da componenti sostenibili. Una buona scelta quando l'esigenza primaria è quella di combinare bassi costi di manutenzione e grande resistenza.

matt lackiert

Durch die lackierte Oberfläche erscheinen die Dielen dezent matt. Die Poren des Holzes sind geschlossen. Damit ist es äußerst widerstandsfähig und völlig unkompliziert in der Pflege.

matt lacquered

The application of matt lacquer will entirely seal the pores of the wood. The matt lacquered finish is very durable and absolutely uncomplicated in care & maintenance.

vernis mat

Grâce à l'application d'une vitrification le parquet obtient une apparence mate et les pores du bois seront colmatés. C'est pourquoi cette finition est résistante et facile à entretenir.

verniciato opaco

Con uno strato di vernice opaca, i pori del legno vengono completamente chiusi. Così il pavimento diventa molto resistente e non ci sono assolutamente problemi di manutenzione.

SORTIER- BESCHREIBUNG LAUBHOLZ

Grading description hardwood
Description du triage feuillus
Scelte latifoglie

noblesse

- ruhiges, harmonisches Holzbild
- im Prinzip astrein (Punkte u. Punktäste möglich)
- ohne Splint
- schlicht und gefladert (bei Specials Eiche Rift schlicht und halbgefladert)
- artentypische, wuchs- und holzspezifische Farb- sowie Strukturunterschiede
- im Wesentlichen ohne Ausbesserungen
- vereinzelte Mineraleinschlüsse bei Ahorn möglich

- soft, structural appearance
- *in principle knotless (occasional knot points possible)*
- *no sapwood*
- *straight and wavy grain (Oak rift in the "Specials range": straight and semi wavy grain)*
- *Contrasting colour variation and grain patterns are a valued feature*
- *basically no filled knots*
- *with maple occasional mineral inclusions are possible*

- *apparence calme et harmonieuse*
- *en principe sans nœuds (quelques picots sont possibles)*
- *sans aubier*
- *structure simple avec de la maille irrégulière (dans la gamme Specials chêne Sciage sur quartier: simple et demi maille irrégulière)*
- *décolorations et différences de structures naturelles*
- *essentiellement sans réparations*
- *quelques inserts minéraux possibles pour l'érable*

- *Aspetto armonioso*
- *senza nodi (possibili nodi ad occhio di pernice)*
- *senza alburno*
- *struttura rigata e fiammata (Rovere rigatino Specials: struttura rigata e semi fiammata)*
- *differenze di tonalità e struttura dipendono della crescita dell'albero*
- *senza riparazioni*
- *inclusioni minerali sporadiche nell'acero*

elegance

- ruhiges, astarmes / reduziert astiges Holzbild
- ohne Splint, ausgenommen Nussbaum u. Kirschbaum
- schlicht und gefladert
- artentypische, wuchs- und holzspezifische Farb- sowie Strukturunterschiede
- kleine Fehlstellen sowie Risse produktspezifisch ausgefertigt
- Mineraleinschlüsse und Einwüchse bei Kanadischer Ahorn u. Kirschbaum möglich

- *soft structural appearance with only a few knots*
- *no sapwood except American Walnut and American Cherry*
- *straight and wavy grain*
- *Contrasting colour variation and grain patterns are a valued feature*
- *small knotholes and shakes are professionally filled*
- *with Canadian maple and American Cherry mineral inclusions are possible*

- *apparence calme, peu de nœuds / apparence avec petits nœuds*
- *sans aubier à part pour le noyer U.S. et le merisier U.S.*
- *simple avec de la maille irrégulière*
- *décolorations et différences de structures naturelles*
- *petits défauts et petites fentes réparés professionnellement*
- *quelques inserts minéraux possibles pour l'érable canadien et le merisier U.S.*

- *Aspetto armonioso, pochi nodi*
- *senza alburno (fatta esclusione per il noce americano e il ciliegio americano)*
- *struttura rigata e fiammata*
- *differenze di tonalità e struttura dipendono della crescita dell'albero*
- *piccoli nodi e fessure sono riparati*
- *inclusioni minerali sporadiche nell'acero canadese e nel ciliegio*

basic

- je nach Holzart astiges bzw. lebhaftes Holzbild
- ohne Splint
- schlicht und gefladert
- mittlere wuchs- und holzspezifische Farb- sowie Strukturunterschiede (bei Esche oliv u. Robinie dunkel kräftiger ausgeprägt)
- Fehlstellen sowie Risse produktspezifisch ausgefertigt

- *Knotty grading*
- *no sapwood*
- *straight and wavy grain*
- *Contrasting colour variation and grain patterns are a valued feature (more colour variation and grain patterns with Ash olive and Robinia dark)*
- *knotholes and shakes are professionally filled*

- *selon essence de bois apparence avec nœuds / vivante*
- *sans aubier*
- *simple avec de la maille irrégulière*
- *décolorations et différences de structures naturelles peu marquées (sauf pour le frêne olivier et le Robinier foncé)*
- *petits défauts et fentes réparés professionnellement*

- *struttura movimentata con nodi*
- *senza alburno*
- *struttura rigata e fiammata*
- *differenze di tonalità e struttura dipendono della crescita dell'albero (differenze evidenti soprattutto nel frassino olivato e nell'acacia scura)*
- *nodi e fessure sono riparati*

naturelle

- lebhaftes, astig-rustikales Holzbild
- ohne Splint
- schlicht und gefladert
- partiell Kern vorhanden
- kräftige wuchs- und holzspezifische Farb- sowie Strukturunterschiede
- Fehlstellen sowie Risse produktivisch harmonisch ausgefertigt
- Risse und partiell nicht gänzlich geschlossene Ausfertigungen sind Teil des rustikalen Erscheinungsbildes

- *knotty rustic grading, surface full of natural character*
- *no sapwood*
- *straight and wavy grain*
- *occasional heartwood*
- *strong contrasting colour variation and grain patterns are a valued feature*
- *knotholes and shakes are professionally filled*
- *Shakes and occasional not completely filled knots are a typical feature of the rustic grade*

- *apparence vivante, avec nœuds – rustique*
 - *sans aubier*
 - *simple avec de la maille irrégulière*
 - *partiellement avec du cœur marron*
 - *décolorations et différences de structures naturelles fortes*
 - *défauts et fentes réparés professionnellement*
 - *Les fissures et les endroits mastiqués seulement partiellement font partie de l'aspect rustique*
-
- *struttura irregolare, rustica e movimentata*
 - *senza alburno*
 - *struttura rigata e fiammata*
 - *possibili parti centrali del tronco*
 - *evidenti differenze di tonalità e struttura dipendono della crescita dell'albero*
 - *nodi e fessure sono riparati*
 - *le fenditure e le stuccature non sono sempre ben sigillate e fanno parte dell'aspetto rustico*

rustic

- sehr lebhaftes, rustikales Holzbild
- ohne Splint (ausgenommen Nussbaum)
- schlicht und gefladert
- je nach Holzart partiell Kern vorhanden
- kräftige wuchs- und holzspezifische Farb- sowie Strukturunterschiede
- Fehlstellen sowie Risse produktivisch betont ausgefertigt
- Risse und partiell nicht gänzlich geschlossene Ausfertigungen sind Teil des rustikalen Erscheinungsbildes

- *Rustic grading, surface full of natural character*
- *no sapwood (except American Walnut)*
- *straight and wavy grain*
- *occasional heartwood depending on the wood species*
- *strong contrasting colour variation and grain patterns are a valued feature*
- *knotholes and shakes are professionally filled*
- *Shakes and occasional not completely filled knots are a typical feature of the rustic grade*

- *apparence très vivante et rustique*
 - *sans aubier (à part pour le noyer U.S.)*
 - *simple avec de la maille irrégulière*
 - *selon essence de bois parfois présence du cœur marron*
 - *décolorations et différences de structures naturelles fortes*
 - *défauts et fentes sont réparés professionnellement et accentués*
 - *Les fissures et les endroits mastiqués seulement partiellement font partie de l'aspect rustique*
-
- *struttura molto irregolare e movimentata*
 - *senza alburno (fatta esclusione per il noce americano)*
 - *struttura rigata e fiammata*
 - *possibili parti centrali del tronco*
 - *evidenti differenze di tonalità e struttura dipendono della crescita dell'albero*
 - *nodi ed fessure sono riparati*
 - *le fenditure e le stuccature non sono sempre ben sigillate e fanno parte dell'aspetto rustico*

ALLGEMEINE HINWEISE:

Diese Sortierbeispiele stellen grundsätzlich die Sortierungskriterien des Admonter Naturbodens dar. Admonter Naturboden ist wie der Name schon sagt, ein natürlich gewachsenes Produkt, somit sind Abweichungen in Struktur und Farbe möglich. Aktuelle Dimensionen und Sortierbeschreibungen entnehmen Sie bitte unseren Prospekten bzw. sind diese auch online unter www.admonter.at abrufbar. Wichtig: Beachten Sie bitte, dass sich auch Muster mit der Zeit durch UV-Bestrahlung farblich verändern; das liegt in der Natur der Sache. Vor der endgültigen Verlegung die Dielen auflegen und unbedingt vorsortieren! Durch die drucktechnische Wiedergabe kann es zu farblichen Abweichungen kommen. Alle Angaben ohne Gewähr.

GENERAL NOTES:

These grading examples basically show the grading criteria of Admonter Natural Floors. Admonter Natural Floor as the name implies, is a naturally grown product so that slight deviations in structure and colour are possible. Current dimensions and grading descriptions are shown in our brochures and catalogues and on our website www.admonter.at. Attention: Please note that samples can change their colour after a certain time with exposure to light. This is a completely natural phenomenon. Prior to installation, it is absolutely necessary to spread out the floorboards and pre-sort them! Due to the reproduction in print colour variations can occur. All information without guarantee.

INFORMATION GÉNÉRALE:

Ces exemples de classement illustrent de façon générale les critères de sélection du Admonter Parquet Naturel. Comme son nom l'indique, ce parquet est le résultat d'un processus naturel. Ce qui explique la présence, éventuellement et souhaitable, de légères différences dans les structures et coloris. Les dimensions actuellement disponibles figurent dans nos brochures et catalogues et également sur notre site internet www.admonter.at. Attention: Les échantillons peuvent changer de couleur après un certain temps d'exposition à la lumière. C'est un phénomène naturel qu'il faut prendre en compte! Avant la pose définitive: Disposer les lames au sol en les triant pour définir le meilleur assemblage final. L'impression papier peut causer des différences importantes sur les couleurs. Toutes ces photographies sont donc présentées à titre indicatif seulement.

INFORMAZIONI GENERALI:

Questi esempi fotografici rappresentano soltanto le varie possibilità di scelta. I pavimenti in legno naturale Admonter, come dice la parola stessa, sono un prodotto naturale e sono quindi possibili variazioni di lavorazione e colore. Per maggiori informazioni sulle dimensioni disponibili e sulle scelte, vi consigliamo di consultare i nostri cataloghi o il nostro sito internet www.admonter.at. Attenzione: Con il passare del tempo i campioni esposti alla luce possono cambiare colore: è un fenomeno assolutamente naturale! Prima della posa in opera è importante aprire i pacchi e scegliere le tavole. A causa di caratteristiche tecniche legate alla stampa, il colore del legno riportato nelle fotografie può subire variazioni rispetto all'originale. Tutte le immagini riportate sono da considerarsi puramente indicative e non sono garanzia di resa del prodotto.
